PRINT BIGGER, BRIGHTER, AND BETTER

ULTRA 270/330/420 SERIES

BM270ADN / BM330ADN / BM420ADN

Running Forward

ULTRA 270/330/420 SERIES

Pantum's A3 mono multifunction printer is the ultimate solution for SMB users seeking efficient office work. It combines printing, copying, and scanning capabilities, offering a user-friendly printing solution. This printer features excellent print quality, high productivity, a user-friendly operation interface, powerful paper handling capabilities, stable performance, reliable security, and optional tools to meet high flexibility and efficiency. This means you now have the freedom to choose a convenient and efficient way to work, ultimately saving you time and resources.

【Copy/Print】
BM420ADN: 35 pages/minute
BM330ADN: 30 pages/minute
BM270ADN: 25 pages/minute

【Scan】
Mono 55 pages/minute

【Print resolution】
Standard 600 * 600dpi
Maximum 1200 * 1200dpi

【Control panel】
7-inch color touchscreen

【ADF capacity】
110 pages

【Paper handling】
Standard 500 pages
Maximum 2096 pages

HIGH PRODUCTIVITY UNLEASHED

Provides quick start mode, the operation panel is ready in 6 seconds.

Preheats in less than 28 seconds.

High-speed scanning with a high-capacity automatic document feeder.
Up to 55ppm scanning speed, 110-page large capacity ADF Support automatic conversion of non-standard size originals to standard size.

Supports USB printing and scanning to USB, which can improve operational efficiency.

Various combinations, high productivity.

SIMPLICITY OF EFFORTLESS OPERATION

7-inch color touchscreen, adjustable operation panel

Different colored lights notifications when a job is completed or an error occurs. Reminders and alarms provide subtle sound notifications for easy identification.

Simple and clear UI design

Icons are evenly distributed and easy to identify. The home screen supports personalization for easy access to commonly used functions. Commonly used settings are easily fixed and support registration of frequently used or repeated tasks.

▣ Standard RADF

Automatic duplex copying and scanning. Support automatic deflection correction to ensure correct paper copying and scanning.
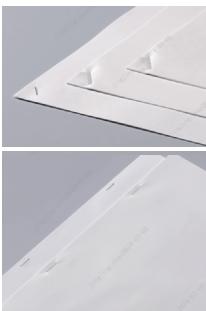

▤ Paper post-processing function

Staple, staple-free staple, saddle staple, crease and other functions, providing users with more choices.

QUICK PRINTING AT YOUR FINGERTIPS

• Secure printing: The machine can only issue jobs after entering the password set by the user.
• Automatic reset: If the machine does not perform any operation for a while, it will automatically reset to the default setting state. Prevent printing errors due to the previous user's settings not being modified.
• Authentication function (preventing unauthorized access): Manage user permissions by system administrator and logged-inuser.
• Information encryption: The communication path is encrypted using SSL/TLS or IPsec, supports SMBv3.

# UNCOMPROMISED PRINTING QUALITY

HD High resolution

LED print head with resolutions up to 1200×1200 dpi (mono).

Automatic correction

Ensure scanning quality and support automatic correction.

GREEN PRINTING
EFFICIENT PERFORMANCE
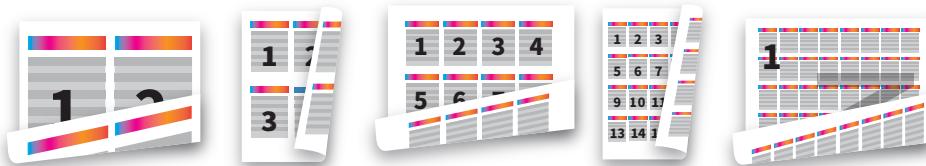

- Equipped with a space-saving and energy-saving LED print head.
- Optimize power consumption by utilizing the smart power-saving feature to individually power
  the required components based on customer usage patterns.
- Staple-free binding helps reduce waste and provides peace of mind where security or contamination is a concern.
- Print, scan, and multi-sheet in one printing helps reduce paper consumption.

PANTUM

EXTENDED FUNCTIONS FOR DIVERSE NEEDS
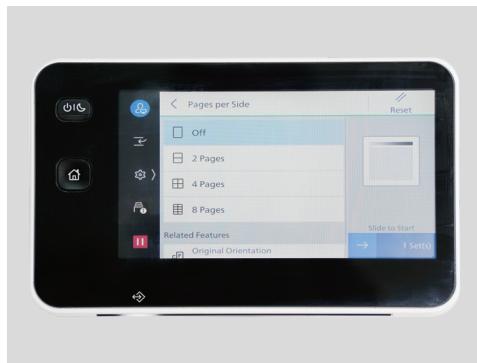

Multi-page copying

Supports 2in1, 4in1, and 8in1 modes.
Free to adjust the layout order and original placement direction.
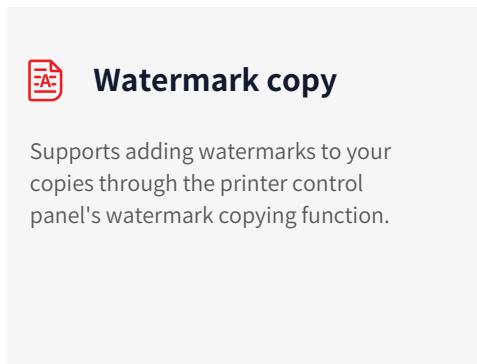

Watermark copy

Supports adding watermarks to your copies through the printer control panel's watermark copying function.
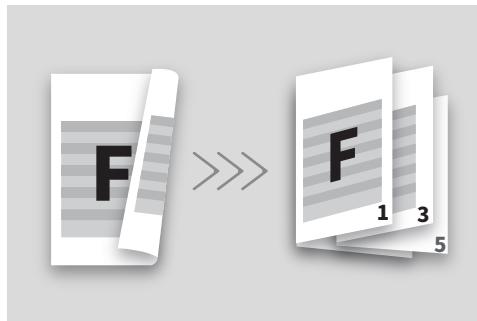

Booklet printing

Supports personalized booklet printing settings.
Users can set paper size, binding edge settings, etc.
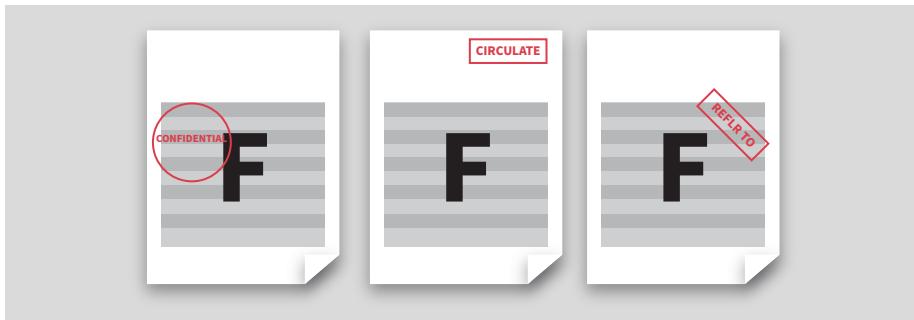

📝 Watermark printing

Create and use watermarks when printing.
It supports the customized setting of the watermark. This function can be used as an anti-counterfeiting mark and a source of copyright for explanatory files to meet different file printing needs.
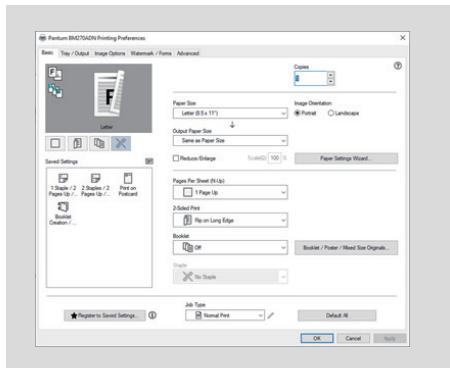

📦 Delayed printing

After sending the print job from the driver, you can enter the actual time to print, and it will print at a specific time.

🔌 More scanning destination

Supports scanning to USB flash drive, Email, SMB, FTP, SFTP, Folder.

Remark:
1. The maximum monthly print load is the range of pages to help customers evaluate product offerings based on the average number of pages customers are prepared to print on the device each month.
Customers are advised that the number of pages printed per month should be within the device's recommended range for optimum performance. In addition, other factors that should be considered include:
consumable replacement intervals, paper loading intervals, print speeds, and typical applications of the customer.
2. This resolution specification cannot be displayed on the official website or any promotional materials, and is only used as a bidding specification.
3. The paper capacity is calculated according to the 75g/㎡ standard test paper. If the paper thickness or weight is different, the capacity will be affected.
4 The output tray specifications are affected by the printing environment, paper brand, paper weight, etc., and the actual specifications may vary.
5. Cartridge capacity is the average yield of the toner cartridge in test one-sided (single-sided) mode for continuous printing, based on the ISO/IEC 19752 standard for color machines.
Actual yields may vary based on device speed, paper size and orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity, among other factors.

OPTIONAL
PARTS

🟥 **Optional paper tray**

1. PT-270: 500 pages
2. PT-270H: 1500 pages
3. PT-270X: 500 pages with cabinet

⬛ **Finisher**

1. PF-270: Staple
2. PF-270G: Gap Filler
2. PF-270X: Staple, staple-free
3. PK-270P: Hole punch module
4. PK-270B: Saddle stapling unit
